# Data Types- I

In programming, **Data Types are declarations for variables**. This determines the type and size of data associated with variables.

For more:

1. [https://www.tutorialspoint.com/cprogramming/c\\_data\\_types.htm](https://www.tutorialspoint.com/cprogramming/c_data_types.htm)
2. <https://www.programiz.com/c-programming/c-data-types>

# Data Types- II

## At a Glance

<u>Name</u>	<u>Full form/ Meaning</u>	<u>Example</u>
int	Integer	1, 24, 32
long long int	Long Long Integer	522352265
char	Character (' ')	S, , +, \$, 5
float	...	32.32
double	...	32.25254512

<u>Format Specifiers</u>
%d
%lld
%c
%f
%lf

# Data Types- III

**int**

**long long int**

# Data Types- IV

**float**

**double**

# Data Types- V

Do You Know...?

**The Range of** Long Long Int?

Kocu, Hahahaha

**Any** questions?

পারবা .....?

Chat এ লিখে  
পেল দ্রুত!

.....?

**Thanks**
